Thinkfinity is the cornerstone of Verizon Foundation's Literacy, Education and Technology initiatives. This free, comprehensive digital learning platform is built upon the merger of two highly-acclaimed programs well-known to educators – the program formerly known as Verizon MarcoPolo and the Verizon Literacy Network. Thinkfinity, which means “endless possibilities for learning,” is designed to improve learning in traditional settings and beyond the classroom by providing high-caliber content and professional development needed to improve student achievement – anytime, anywhere, at no cost.
