50.56 KB

Howard is our Project Manager at the Las Americas ASPIRA Academy in Delaware. The Americas Academy is our newest charter bilingual school. Howard comes to ASPIRA of Delaware via Innovative Schools Development Corporation, the organization that is providing support for schools development this planning year.

Howard has worked indefatigably on our behalf selecting architects, reviewing properties, doing endless drawings of our ever-changing move-in plan and has always been there when we needed him. Although he is a paid consultant, we haven't paid him much yet but he keeps on working things for us. He has just been great and we don't think we could have gotten to this point without him. Howard works for the Axis Group.

The AXIS Group, Inc was incorporated in 1994 by Howard Smith after his 15 year career in project management at the DuPont Co. Howard is the Principal and currently the sole employee. The firm is in the business of offering Facilities Project Management Services to business and Not-For Profit organizations to meet their new or expanding facilities needs. Services can include as needed based on the Client's needs. More information about the Axis Group is attached.
